Medical Laboratory Sciences (1986) **43**, 411–415

Subject index

Actinomyces, 286
ADCC, 183
Adverse effects of sodium heparin on a radioimmunoassay for plasma cortisol, 190
AIDS and the laboratory, 209
Alpha-1-antitrypsin, 135
Alpha-naphthyl acetate esterase, 280
Analysers, 319
Analysis of lymphocyte sub-populations in cytocentrifuge preparations, 59
Anchorage independence, 314
Anti-A, 194
Anti-bacterial activity of topical anti-infective eye preparations, The, 157
Antibodies, 148, 360
Antibody, 48
Antibody-dependent cell-mediated cytotoxicity (ADCC) and red cell destruction, 183
Anti-factor VII, 215
Antiglobulin test, 169
Antimicrobial susceptibility determination by an automated conductance technique, 232
Ascites fluid, 194
Automated, 232, 277
Automated counting of cells in peritoneal dialysis effluent, 277

Bacterial contamination of blood for transfusion: a study of the growth characteristics of four implicated organisms, 252
Bacteriological techniques, 344
Bacteriuria, 28
B lymphocytes, 53
Binding, 225
Blast cells, 88
Blood culture, 19, 196
Blood culture quality control scheme, A, 19
Blood donors, 174
Blood for transfusion, 252
Blood glucose, 84
Blood group, 163
Blood grouping, 364
Blood group antigens, 177
Blood products, 249
Book Reviews:
A Colour Atlas of Histology—*M.B.L. Craigmyle*, 400
A Colour Atlas of Virology—*J. Versteeg*, 407
A Dictionary of Genetic Engineering—*Stephen G. Oliver and John M. Ward*, 111
A Dictionary of Genetics—*R.C. King and W. D. Stansfield*, 111
AIDS: The Acquired Immune Deficiency Syndrome—*Victor G. Daniels*, 302
AIDS: The Deadly Epidemic—*G. Hancock and E. Carim*, 406
Applied Blood Group Serology. 2nd Edition—*Peter D. Issitt*, 301
A Practical Handbook for Software Development—*N.D. Birrell and M.A. Ould*, 297
Basic Cloning Techniques—A Manual of Experimental Procedures—*R.H. Pritchard and I.B. Holland (Editors)*, 206
Basic Histopathology. A Colour Atlas and Text—*P.R. Wheater, H.G. Burkitt, A. Stevens and J.S. Lowe*, 297
Blood Component Therapy in Clinical Practice—*R.W. Bear and J.P. Isbister*, 406
Blood Diseases—Pocket Picture Guide—*P.E. Hewitt*, 298
Cambridge Illustrated Thesaurus of Chemistry—*A. Godman and R. Denney*, 407
Cambridge Illustrated Thesaurus of Science and Technology—*A. Godman and R. Denney*, 407
Cell Clones—A Manual of Mammalian Cell Techniques—*C.S. Potten and J.H. Hendry (Editors)*, 206
Cell, Tissue and Disease: The Basis of Pathology—*N. Woolf*, 400
Cellular Pathology Technique. 4th Edition—*C.F.A. Culling, R.T. Allison and W.T. Barr*, 203
Chemistry of the Prostaglandins and Leukotrienes (Advances in Prostaglandin, Thromboxane and Leukotriene Research, Volume 14)—*J.E. Pike and D.R. Morton (Editors)*, 107
Clarke's Isolation and Identification of Drugs, 405
Clinics in Immunology and Allergy. October 1985. Laboratory Investigations of Immunological Disorders—*R.A. Thompson (Editor)*, 401
Colour Atlas of Histopathology. 3rd Edition—*R.C. Curran*, 106
Colour Atlas of Pulmonary Cytopathology—*Jennifer A. Young*, 203
Current Topics in Microbiology and Immunology. Volume 121. Bacteria and Complement—*M. Loos (Editor)*, 402

Cytofluorometrie et Anticorps Monoclonaux pour le Suivi des Therapeutiques. Flow Cytometry and Monoclonal Antibodies for Therapy Monitoring—*P. Gros, F.K. Jansen, P. Poncelet and R. Ronucci (Editors)*, 206
Dictionary of Biomedical Acronyms and Abbreviations—*J. Dupayrat*, 111
Dictionary of Immunology. 3rd Edition—*W.J. Herbert, P.C. Wilkinson and D.I. Stott (Editors)*, 299
Disease, Laboratory Data and Diagnosis: 20 Cases to Improve Diagnostic Skills—*V. Scharz and G.M. Addison*, 303
Drinking Water Materials—*D. Schoenen and H.F. Scholer*, 403
Essentials of Medical Mycology—*E. Glyn, V. Evans and J.C. Gentles*, 404
Genetic Approaches to Microbial Pathogenicity: Current Topics in Microbiology and Immunology. Vol. 118—*W. Goebel (Editor)*, 402
Handbook of Laboratory Waste Disposal—*M.J. Pitt and E. Pitt*, 208
History of Staining—*Clark and F.H. Kasten*, 112
Images of Biological Active Structures in the Immune System. Current Topics in Microbiology and Immunology. Vol. 119—*H. Doprowski and F. Melchers (Editors)*, 401
Interferons: Their Impact in Biology and Medicine—*Joyce Taylor-Papadimitriou (Editor)*, 205
Interpretation of Clinical Laboratory Tests—*G. Siest, J. Henny, F. Schiele and D.S. Young*, 303
Introducing Immunology—*N. Staines, J. Brostoff and K. James*, 108
Introduction to Sterilization and Disinfection—*J.F. Gardner and M.M. Peel*, 404
Isolation and Identification of Micro-organs of Medical and Veterinary Importance—*C.H. Collins and J.M. Grange (Editors)*, 109
Laboratory Hematology—*J.A. Koepke (Editor)*, 107
Laboratory Manual of Histochemistry—*Linda L. Vacca*, 106
Lecture Notes on the Infectious Diseases—*B.J. Mandal and R.T. Mayon-White*, 109
Learning Guides for the Medical Microbiology Laboratory—*Josephine R. Smith, Rebecca J. Landicina and Rosemarie D. Rufo*, 207
Media for Isolation – Cultivation – Identification – Maintenance of Medical Bacteria. Volume 1—*Jean F. MacFaddin*, 300
Medical Laboratory Manual for Tropical Countries. Volume II. Microbiology—*Monica Cheesbrough*, 108
Medical Terminology: A Guide to Current Usage—*P.M. Davies*, 111
Methods in Complement for Clinical Immunologists—*K. Whaley (Editor)*, 108
Methods in Enzymology:—Vitamins and Coenzymes—*F. Chytil and D.B. McCormick*, 400
Microbe Base (Apple II+, IIc & IIe version)—*J. Magee and P. Wheat*, 300
Microbiology for the Public Health—*R.E.O. Williams*, 207
Microbiology of Infectious Diseases—*Dilip K. Banerjee*, 299
Monoclonal Antibodies against Bacteria. Volumes One and Two—*A.J. Macario and E.C. de Macario (Editors)*, 401
Organisation and Practice in Tuberculosis Bacteriology—*C.H. Collins, J.M. Grange and M.D. Yates*, 402
Parasites and Human Disease—*W. Crewe and D.R.W. Haddock*, 301
Progress in Transfusion Medicine. Vol. 1—*J.D. Cash (Editor)*, 405
Recent Advances in Blood Coagulation. Number 4—*L. Poller (Editor)*, 204
Recent Advances in Haematology. Number 4—*A.V. Hoffbrand*, 204
Research: How to Plan, Speak and Write about it—*C. Hawkins and M. Sogi*, 408
Self-Assessment in Histological Techniques—*John D. Bancroft and Brian T. Chalk*, 297
Slide Atlas of Immunology—*I. Roitt, J. Brostoff and D. Male*, 205
Surgical Infection in Critical Care Medicine—*J.L. Meakins (Editor)*, 403
The Cambridge Encyclopedia of Life Sciences—*A. Friday and D.S. Ingram* (Editors), 304
The Epson PX-8: A Clear and Comprehensive Guide to Business Applications—*A. Jute*, 409
The Haemolytic Anaemias. Vol. 1. The Hereditary Haemolytic Anaemias, Part 1. 3rd Edition, 298
The IBM-PC in the Clinical Laboratory—*J.H. Cronenberger, A.E. Hilger, L. Milks and D. Chou*, 112
The Laboratory Manager's Problem Solver—*R.J. Fitzgibbon and J.R. Snyder*, 408
The Molecular Basis of Cancer—*Peter B. Farmer and John M. Walker (Editors)*, 106
The Principles and Practice of Electron Microscopy—*I.M. Watt*, 110
The Scientific Basis of Antimicrobial Chemotherapy—*D. Greenwood and F. O'Grady (Editors)*, 301
The Structure of Biological Science—*A. Rosenberg*, 304
The Urinary Tract and the Catheter—*N. Slade and W.A. Gillespie*, 203
Understanding AIDS: A Comprehensive Guide—*V. Gong (Editor)*, 110
Viruses and Cancer—*P.W.J. Rigby and N.M. Wilkie (Editors)*, 208
Working with VDUs—*Health and Safety Executive*, 408
X-Ray Microanalysis in Electron Microscopy for Biologists—*A.J. Morgan*, 404

Carbon, 38
Catheter urine specimens, 284
Cell culture, 258
Cellular pathology, 113
Chemical screening and prediction of bacteriuria—a new approach, 28
Chlamydia psittaci, 241
Chlorhexidine resistant organisms, 284
Chromogenic substrates, 24
Cirrhosis, 38
Clinical chemistry, 319
Computer, 199
Computerised anti-HTLV-III data collection and integration, 340
Comparison of five ovine isolates of *Chlamydia psittaci*: an evaluation of three cell culture treatments, 241
Control of stirring rate on commercial magnetic stirrers, 86
Controls and standardisation in cellular pathology, 113
Copper sulphate screening test for haemoglobin levels in blood donors: a re-assessment, 174
Cortisol, 190
Cytocentrifuge, 59

Data collection, 340
Data interpretation, 199
Demonstration of leprosy bacilli in the eyes of experimentally infected armadillos: a comparison of five melanin bleaching methods, 211
Detection of toxoplasma specific IgM by a solid-phase haemadsorption assay, 356
Detection of Type I and Type II antibodies to intrinsic factor, 148
Determination of plasma total alpha-1-antitrypsin by enzyme-linked immunosorbent assay, 135
Developing countries, 91
Dextran, 44
Diaminonaphthalene, 2,3-, 331
Diphtheroid-like properties of *Mycoplasma arthritidis*, 9

Editorial policy, 101
Effect of carbon tetrachloride-induced cirrhosis of the liver on fibrinogen-bound sialic acid and sialyltransferase activity in the rat, 38
Effect of fixation upon monoclonal cryostat immunohistochemistry, The, 128
Effect of melanin bleaching on immunoperoxidase, with reference to ocular tissues and lesions, 115
Effects of selected enzymes and monosaccharides on the binding of five bacterial strains to human lymphocytes, 225
Enhanced luminescence: application in a photographically monitored enhanced luminescent enzyme immunoassay for factor VIII related antigen, 145
Enumeration of B lymphocytes, 53
Enzyme-linked immunosorbent assay, 135
Enzymes, 225
Epithelial, 314
Epoxy-embedded, 93
Errors in bacteriological techniques: results from the United Kingdom national external quality assessment scheme for microbiology, 344
Escherichia coli, 2
Eye preparations, 157
Eyes, 211

Factor VII-depleted plasma by immunoaffinity chromatography, 215
Factor VIII related antigen, 145
Factors influencing blood group antigen estimation by immunoautoradiography, 163
Fibrinogen, 38
Fixation, 128
Fluorometric determination of micro-amounts of selenium in human blood, using 2,3-diaminonaphthalene, 331
Folic acid, 140

Gerbich blood group antigens: a review, 177
Gram staining in the rapid diagnosis of small bowel bacterial contamination, 386

Haemadsorption assay, 356
Haemoglobin levels, 174
Haemolytic uraemic syndrome, 382
Heparin, 190
High performance liquid chromatography, 258
Histopathology, 369
Home monitoring, 84
HTLV-III, 340

Identification, 2, 24
Identification of pathogenic Neisseria by enzyme profiles determined with chromogenic substrates, 24
Identifying Actinomyces, 286
Immunoassay, 145
Immunoassays, 269
Immunoautoradiography, 163
Immunogold cell labelling system for T lymphocyte enumeration: an evaluation, 152
Immunohistochemistry, 128
Immunoperoxidase, 115
Improved erythrocyte sedimentation and leucocyte recovery with Dextran T500, 44
Improved immunoperoxidase staining on semi-thin sections of epoxy-embedded tissues, 93
Influence of substrate and initial cell number on the expression of anchorage independence by two malignant epithelial cell lines, The, 314
Influence of tube type on the antiglobulin test, 169
Inherent anti-A in mouse ascites fluid, 194

Instructions to authors, 101
Instrumentation, 319
Intrinsic factor antibodies in relation to disease, 220
Intrinsic factor antibody detection and quantitation, 48
Isolation of *Trichomonas vaginalis*: a simple diagnostic medium for use in developing countries, 91

Laboratory management of the haemolytic uraemic syndrome, 382
Lectins in diagnostic histopathology: a review, 369
Legionella pneumophila, 388
Legionellaceae, The, 64
Leprosy bacilli, 211
Letters to the Editor:
Analysis of creatinine—*M. Rodger/J.S. Colliss and R. Ginman*, 296
Book review: *Colour Atlas of Pulmonary Cytopathology*, Jennifer A. Young—*J.Sims/R.T. Allison*, 399
Heat treatment before biochemical analysis of AIDS risk samples—*C. van Heyningen and N.P. Harling*, 99
Laboratory services in developing countries—*K.R. Perry*, 100
Thyroid stimulating hormone (TSH) measurements in dementing patients—*A. Marsh and A. Burns*, 294
Topical anti-infective eye preparations—*H.P.G. Dave/K.C. Ashley*, 398
Leucocyte, 44
Low-ionic polybrene, 393
Low-ionic strength polybrene, 360
LR Gold resin, 289
Lymphocyte, 59, 225

Magnetic stirrers, 86
Man and Microbe in the 1980s—a challenge? 1
Manual low-ionic strength polybrene technique for detection of red cell antibodies, 360
Measles virus, 34
Measurement of retinol-binding protein in the assessment of renal allograft function, 335
Measurement of vitamin B_{12} and serum folic acid: a comparison of methods, 140
Medical laboratory science, 305, 307
Melanin bleaching, 115
Melanin bleaching methods, 211
Membrane HLADr (Ia-like) and cytoplasmic chloroacetate esterase expression by blast cells in myeloid leukaemia, 88
Microbiology, 344
Micro-computer, 192
Microplate blood grouping with computer-controlled reading and data interpretation, 199
Microplates, 393
Microscopy, 192
Mixing video and micro-computer output signals: applications in microscopy, 192
Monoclonal antibodies, 280
Monosaccharides, 225
Mycobacteria, 390
Mycoplasma arthritidis, 9
Myeloid leukaemia, 88

Neisseria, 24
Normal monocyte sub-populations defined by monoclonal antibodies and alpha-naphthyl acetate esterase cytochemistry, 280

Opportunist mycobacteria, 262

Preparation of factor VII-depleted plasma by immunoaffinity chromatography of insolubilised anti-factor VII, 215
Peritoneal dialysis effluent, 277
Polyamines, 258
Polymerisation of LR Gold resin using white light, 289
Purpose-made enzyme conjugates for quantitative immunoassays, 269

Quality assessment, 344
Quality assurance of physiological saline used for blood grouping, 364
Quality assurance. I. Philosophy and basic principles, 377
Quality control, 19

Radioimmunoassay, 190
Rapid analysis of polyamines in cell culture by high performance liquid chromatography, 258
Rapid presumptive identification of *Escherichia coli* from urine samples: a simple direct plating method, 2
Red cells, 393
Red cell antibodies, 360
Renal allograft, 335
Retinol-binding protein, 335
Routine screening of catheter urine specimens for chlorhexidine resistant organisms, 284

Saline, 364
Sections, 93
Selection and evaluation of laboratory instrumentation in clinical chemistry: I. Survey of major analysers in the United Kingdom, 319
Selenium, 331
Sialic, 38
Sialyltransferase, 38
Simple immunoassays for salivary and plasma steroids, 72
Single radial haemolysis for demonstrating measles virus antibody, 34

Spot blood glucose determination: a new method and its application to home monitoring, 84
Standardisation, 113
Staphylococcus aureus, 196
Statement of editorial policy and full instructions to authors, 101
Sterility testing method for blood products, A, 249
Steroids, 72
Storage of mycobacteria at −20°C, 390
Survival of bacteria in swab transport packs, 14
Survival of *Legionella pneumophila*, 388
Swab transport, 14

Thermonuclease testing: the rapid identification of *Staphylococcus aureus* in blood culture, 196
Thesis summaries:
Adaptation and evaluation of the Technicon SMAC for microanalysis and the subsequent derivation of paediatric reference ranges—*T.G. Hurley*, 99
Alpha-naphthyl acetate esterase and acid phosphatase cytochemistry of immunologically defined lymphocyte subpopulations—*I.D. Mackarill*, 395
A study of the acrylic resins for use in enzyme histochemistry and immunocytochemistry of lymphoid tissue—*C.S. Thorpe*, 396
Biological markers in testicular germ cell tumours: an immunocytochemical investigation—*D.N. Butcher*, 292
Chromogenic assays for the determination of prothrombin—*Susan R. Howson*, 293
Colonization, resistance of the digestive tract with respect to infection with *Clostridium difficile*—*Fiona Elizabeth Barclay*, 202
Comparison of some ovine isolates of *Chlamydia psittaci*—*Ian Edward Anderson*, 201
Fc-receptor-blocking antibodies: detection and role in renal transplantation and normal pregnancy—*K.N. Stewart*, 395
Measurement and models of bacterial contamination—*P.J. Reed*, 397
New techniques and their application in the study of lipoprotein metabolism—*J.M. Stewart*, 98
Non-enzymatic glucosylation of low density lipoprotein—*Linda McKinney*, 201
The development of a bile salt method and its use as a liver function test in the neonate—*E.C. Smith*, 293
The effect of new cephalosporins and penicillins on *Pseudomonas aeruginosa*—*Margaret Ferguson-Redmond*, 96
The origin of the extra chromosome in Down syndrome in Northern Ireland—*Wilma Winifred Coffey*, 97
The relationship of iron and iron binding proteins with cells of the lymphoreticular system, as studied by histochemical and immunohistochemical staining techniques—*Karen J.M. Britten*, 292
Thionin: further studies and discussion, 115
T lymphocyte, 152
Toxoplasma, 356
Trichomonas vaginalis, 91
Tube type, 169
Typing of red cells on microplates by the low-ionic polybrene technique, 393

Unity and diversity in medical laboratory science, 305
Unusual opportunist mycobacteria, 262
Urine, 2

Vitamin, 140

Medical Laboratory Sciences (1986) **43**, 416–418
